## CompuTainer Condom Holder

CompuTainer has recently launched a new offering to combine social responsibility with branding and marketing in the fight against HIV and AIDS.

The offering revolves around corporates supplying free condoms to target audiences in a branded Condom Holder. This would enable the corporate branding and marketing messages to be associated with the corporates social responsibility activities in target audiences and/or for staff.

The Condom Holders have been designed to fit three (3) condoms. The outside of the Condom Holder may be branded with the client's logo. While there is also a possibility to include a simple business card type insert of 50MM X 45MM inside the Condom Holder.

All condoms are high quality condoms manufactured in a SABS approved facility and carry a shelf life of min four (4) years. They are manufactured according to both SABS and ISO standards. All condoms carry LOT NUMBER, MANUFACTURE DATE and EXPIRY DATES. For quantities of over 750,000 condoms; the condom wrappers can also be customised.

Kind regards
